September 2005 Issue In category Litigation Support

#### MetaLinc\$ E-Discovery

Mountain View, Calif.-based MetaLinc\$ (www.metaling\$.com), an electronic data discovery software provider, has unveiled its MetaLinc\$ E-Discovery application.

The new software is designed to help corporate attorneys, investigators and litigators discover relevant information within electronic messages and documents, reducing litigation and compliance risks, the company says. MetaLinc\$ E-Discovery features a visual representation of the relationships between people, events, time, documents and communication patterns found in an electronic document collection. This approach provides an understanding of electronic information in context, says MetaLinc\$.
